

Java™ Roadmap

This Learning Roadmap will help you understand how the courses relate to each other, and what order you may wish to complete the training based on your current knowledge.

LEVEL 100

This course assumes a basic level of familiarity with programming terms and concepts.

Java SE Programming: Objects, Classes, and Constructors

Java SE Programming: Inheritance, Interfaces, and Collections

Java SE Programming: JDBC, Reflections, and Threading

Java SE Programming: XML, Security, and JUnit

LEVEL 200

These courses are designed for individuals with a working understanding of Java SE.

Java EE Programming: Servlets and JSP Fundamentals

Java EE Programming: Servlets, JSP, Security, and JavaServer Faces

Java EE Programming: Enterprise JavaBeans (EJB .0) and Java Persistence

Java EE Programming: Enterprise JavaBeans (EJB 3.0) in the Enterprise

Java EE Programming: JAX-WS Web Services

Java EE Programming: JAX-WS Web Service Controls

Java EE Programming: AJAX Fundamentals

Java EE Programming: AJAX with Direct Web Remoting (DWR), DOJO and Security

LEVEL 300

After the Level 200 Java EE courses, individuals can choose to go on to these more specialized courses.

Java EE Programming: Spring 3.0

Java EE Programming: Integrating Hibernate and Spring 3.0

Java EE Programming: Hibernate

Legacy

These courses were based on previous versions of Java. Concepts covered in this course have been integrated into some of the courses listed above.

J2SE 1.4: Java Fundamentals

J2SE 1.4: Java Web Development
