

Objective-C for Designers, Part 4: Statements

page 1

Meet the expert: Our Creative Design courses are presented by experts from Wiley Publishing. Wiley is a global provider of knowledge and knowledge-enabled services that improve outcomes in areas of research, professional practice, and education. They are the publisher of award-winning journals, encyclopedias, books, and online products and services.

Prerequisites: This course assumes some familiarity programming but not with Objective C. This course is part of 9 course learning series; Objective-C for Designers: Your First Program; Objective-C for Designers: Logic; Objective-C for Designers: Data Types & Loops; Objective-C for Designers: Decision Statements; Objective-C for Designers: Custom Classes; Objective-C for Designers: Inheritance & Polymorphism; Objective-C for Designers: Using Variables; Objective-C for Designers: Protocols & Preprocessor; and Objective-C for Designers: Objects & Memory Management. Please be sure to view the courses in order if you are new to the material.

Runtime: 01:06:12

Course description: Master Objective-C programming in this 9 part learning series, Objective-C is a general-purpose, object oriented programming language used by Apple to program their OS X and iOS operating systems. This introductory course for using Objective-C to program the Apple iOS starts with the fundamentals including using the terminal and an introduction to Xcode, variables and functions. From there, you'll learn Objective-C programming basics such as object-oriented concepts, creating multiple instances of a class, and how to work with data types and expressions. Find out how to program logic and decision statements, understand Polymorphism, and implement protocols and delegation.

Course outline:

While & Do While Loops

- Introduction
- Using the While Loop
- Creating a While Loop
- Nesting While Loops
- Using the Do While Loop
- Creating a Do While Loop
- Summary

If-Else Statements

- Introduction
- Introduction to Decisions
- Switch Statements
- Using If Statements
- Nested If-Else Statements
- Creating an If Statement
- Summary

Switch Statements

- Introduction
- Using Switch Statements
- Creating a Switch Statement
- Running a Switch Statement
- Using Boolean Variables
- Creating Booleans
- Primes
- Summary
