

# Complete Android Development, Part 10 of 29: Baby Needs App

page 1

**Meet the expert:** Paulo Dichone graduated from Whitworth University with a B.S in Computer Science in 2009 and has worked building Android and iOS mobiles apps as well as web applications. Since 2014 he's been an online instructor teaching over 40,000 students from 170 countries in how to program Java and build Android Applications.

**Prerequisites:** Knowledge of java programming is required. If you do not, then paulo's java series "Java SE 9 Parts 1 through 14" would be needed. Base understanding of Mobile Development

**Runtime:** 01:36:35

**Course description:** This series is for you, if you want to understand, architect, and master Android Applications. This course covers a baby list application, and how to add and save items for it.
