**Prerequisites:** This course is best suited for individuals with 2 years or more experience within business, business analysis, or a project/reporting analyst capacity. This course assumes that you are familiar with the BABOK® guide and its associated principles, but is not required.

**Runtime:** 25:20

**Course description:** Business needs are the problems and opportunities of strategic importance faced by the enterprise from the perspective of the enterprise, not that of any particular stakeholder. Often identified or expressed along with a suggested solution, it's the responsibility of the business analyst to question the assumptions and constraints that are generally buried in the statement of the issue. Explore the duties of the business analyst to ensure that the correct problem is being solved and that th
