ASP.NET Core 6 MVC, Part 1 of 9

page 1

Meet the expert: I have a master's of science degree in computer science, and a bachelor of Computer Engineering. I also have many years of experience with .NET, C#, and .NET MVC. I enjoy teaching along with my full-time job.

Prerequisites:
- 3-6 months of C# experience
- Basic SQL knowledge
- Basic HTML and JavaScript knowledge.

Runtime: 01:18:30

Course description: Microsoft's ASP.NET Core 6 platform is everything you need to build rich, interactive front end web UI and powerful back-end services. This course will get you proficient with MVC through building a project. Topics covered include: a walkthrough of the main project, tools needed, projects and settings, as well as an overview of MVC Architecture.
