

Microsoft Outlook 2016, Part 1 of 2: Email and Contacts

page 1

Meet the expert: Sondra Nelson is a Microsoft Certified Trainer and has been teaching Microsoft Office for over 15 years. She has teaching and consulting experience with high school students, college students and corporate employees.

Prerequisites: No prerequisites are required. Knowledge of outlook and email clients will be helpful.

Runtime: 57:56

Course description: In this course, we will be working with Microsoft Outlook and exploring how to set up different kinds of email accounts, managing contacts, creating and sending email messages, formatting email messages, and using tasks and notes. We will be going over topics such as setting up exchange, Hotmail and Gmail email accounts; creating contacts, groups and adding identifying information to them, creating and sending email messages to contacts or groups, adding a professional look to email messages and how to use tools to track tasks by date and create reminders with notes.
