

Microsoft Outlook 2016, Part 2 of 2: Customization

page 1

Meet the expert: Sondra Nelson is a Microsoft Certified Trainer and has been teaching Microsoft Office for over 15 years. She has teaching and consulting experience with high school students, college students and corporate employees.

Prerequisites: No prerequisites are required. Knowledge of outlook and email clients will be helpful.

Runtime: 01:17:43

Course description: In this course, we will look at Microsoft Outlook and I will show you how to use calendars and how to work with one or multiple calendars, setup outlook in the backstage view using options, search outlook using built-in tools, and how to increase productivity by organizing and managing items in outlook. We will go over topics such as how to create meetings and appointments and invite contacts or groups, how to search for items in outlook and refine your search to find very specific items, and how organize and manage items using color, various tags and use folders.
