

Microsoft PowerPoint 365, Part 3 of 4: Working with Objects

page 1

Meet the expert: I'm Kari Hoiem. I have a Bachelors degree in Business and Accounting from Concordia College in Moorhead, I was a CPA and went on to get my Masters in Education Technology from Pepperdine in Malibu, California. I have been working as a trainer and consultant for Microsoft Office products for more than 20 years and I've helped clients in almost every industry in a wide range of different capacities and applications. I have taught thousands of people how to use Microsoft Office apps (Excel, Access, Outlook, PowerPoint etc). I have done stand-up classroom style training, virtual training, on-demand training, self-paced training, executive training, one-on-one training – you name it – I've probably done it. I LOVE teaching people how to use these everyday programs better, ways to save time so you can work SMARTER and have more time for the things that you love. Thanks so much for allowing me to help you learn.

Leeanne McManus is a nationally renowned trainer, facilitator, and productivity expert who has conducted thousands of sessions over the past decade. While widely recognized for helping end-users, departments, and organizations learn how to maximize their software products, most notably Office 365 and Adobe, Leeanne also facilitates sessions to enhance productivity and performance through soft skills development. Her professional background includes Human Resources, Operations, and Talent and Development.

Prerequisites: This course assumes that students are familiar with the basic use of Windows and common use of the mouse and keyboard. No prior experience with PowerPoint is assumed.

Runtime: 03:52:12

Course description: Join productivity experts Leeanne McManus and Kari Hoiem as they focus on working with a variety of objects, as well as one of the main components in PowerPoint. They will show how to use objects such as images, SmartArt, shapes, tables and charts to grab the attention of your viewers. Additionally, they will explore how to animate objects so they come in, flow, move and accentuate.

Course outline:

Inserting Images

- Introduction
- Inserting Graphics
- Demo: Insert Images
- Demo: Image Borders
- Demo: Editing Pictures
- Demo: Online and Screenshots
- Summary

Smart Art

- Introduction
- Working with SmartArt
- Demo: SmartArt
- Demo: SmartArt Layouts
- Demo: SmartArt Styles
- Demo: Insert SmartArt
- Summary

Shapes

- Introduction
- Working with Shapes
- Similar Other Text Features
- Demo: Shapes
- Demo: Grouping

- Demo: Edit Shapes
- 3D Models
- Demo: 3D Models
- Summary

Inking and Screen Recording

- Introduction
- Enhanced Inking Features
- Demo: Inking Features
- Demo: Select and Ink to Shape
- Screen Recording
- Demo: Screen Recording
