

# Microsoft Word 2016, Part 3 of 5: Tables and Objects

page 1

**Meet the expert:** LeeAnne McManus is a nationally renowned trainer, facilitator, and productivity expert who has conducted thousands of sessions over the past decade. While widely recognized for helping end-users, departments, and organizations learn how to maximize their software products, most notably Office 365 and Adobe, LeeAnne also facilitates sessions to enhance productivity and performance through soft skills development. Her professional background includes Human Resources, Operations, and Talent and Development.

**Prerequisites:** This course assumes that students are familiar with the basic use of Windows and common use of the mouse and keyboard. No prior experience with Word is assumed.

**Runtime:** 01:51:43

**Course description:** This course will focus on the use of tables, which are vital if underused tools for adding structure to your Word documents. Instructor LeeAnne McManus will demonstrate the full array of tools used to insert and modify tables and also look at the ready-made graphics and objects available for users of Word.

## Course outline:
