

PMP® Certification 2021 PMBOK® 6, Part 10 of 13: Project Procurement Management

page 1

Meet the expert: Steve has been involved in the Information Technology Industry for over 35 years and is experienced in the management and control of all aspects of technology projects. Steve has successfully delivered a myriad projects in a large number of industry segments. He has developed a solid understanding of the issues and principles required to successfully implement solutions using a combination of rapid development techniques and traditional Project Management to ensure projects are delivered on time while still ensuring end user satisfaction. Steve has lectured part-time at local universities teaching courses in Project Management, Information Systems and Systems Analysis at both graduate and under-graduate levels. >

Prerequisites: It will be helpful to have watched earlier parts in the PMP Certification (PMBOK 6) series.

Runtime: 51:28

Course description: The new version of the Project Management Professional (PMP)® certification exam launched on 2 January 2021. It took existing version 6 content and reoriented the focus while adding Agile Content. This course covers Project Procurement Management. It contains three processes that govern procurement. IT focuses on how the work break down structure necessitates resources and working with the procurement.
