

# Dirty Lighting with Bob Davis

page 1

**Meet the expert:** Our Creative Design courses are presented by experts from Wiley Publishing. Wiley is a global provider of knowledge and knowledge-enabled services that improve outcomes in areas of research, professional practice, and education. They are the publisher of award-winning journals, encyclopedias, books, and online products and services.

**Prerequisites:** This course assumes familiarity with the workings of a DSLR and an understanding of camera terms.

**Runtime:** 01:42:19

**Course description:** So you want to setup a photo studio but you don't have the funds to get the lights and other equipment needed to set it up. The Dirty Lighting courses with instructor Bob Davis will give you ideas on how you can use existing lighting, how to use "Hardware Store" lighting or use natural light from windows. You'll also see how you can use a basement or attic as a studio. You'll also experiment with light to create different effects and learn how to work with multiple light sources.

## Course outline:

### Hardware Store Lighting

- Introduction
- Inexpensive Lighting
- Experimenting with Light
- Make Your Own Light Stand
- Summary

- Using Light Properly
- Using Window Light
- Summary
