React by Example, Part 5 of 7: Cart Page

page 1

Meet the expert: John Smilga is a Front-End Web Developer in the Los Angeles Area. John has a Bachelor’s Degree in Software Development. He spends most of his time working with Javascript, CSS3, and HTML5, and he is passionate about everything related to web development. He learns from the community and loves to share with the community what he has learned. He strives to explain very complex topics in a simple manner that everyone can understand.

Prerequisites: This course is a continuation of the React Series.
React, Part 1 of 7: React Basics
React, Part 2 of 7: Intermediate React
React, Part 3 of 7: City Tours Project
React, Part 4 of 7: Advanced React
React, Part 5 of 7: TODO Project
React, Part 6 of 7: Food2Fork Project
React, Part 7 of 7: Tech Store Intro

Part 7 of 7 will be very helpful as the Tech store buildout is continued

Runtime: 01:28:18

Course description: React is a Javascript library for building user interfaces. This course covers the Cart page, setup functionality for item addition and subtraction or clear the car completely.
