

Securing Windows Server 2016, Part 4 of 5: Data Protection and File Server Management

page 1

Meet the expert: Patrick Loner has certifications for MCSA, MCSE, MCITP, A+, Network+, Security+, and more. He has been working as a Microsoft Certified Trainer, network administrator, and network consultant for over ten years. He has over a decade of experience working with and teaching about Windows networks with client and server operating systems. He has guided many students toward Microsoft and CompTIA certifications. Most recently, he has worked as a freelance trainer and network consultant specializing in Windows Server 2008 and Microsoft Exchange 2007 and Exchange 2010 implementations, design, and upgrades. Patrick continues to branch out now working with and training on Windows Server 2012, Windows 8, Exchange 2013, and System Center Configuration Manager 2012.

Prerequisites: This is part 4 of the course

Runtime: 02:54:14

Course description: Data protection is front and center in Windows Server 2016 and is often implemented using file and folder permissions. We'll talk about the Access Control List (ACL), encryption, and confidentiality. Next, the course will discuss Advanced File Server Management and the File Server Resource Manager. It will finish up with BitLocker and Dynamic Access Control.

Course outline:

File Encryption

- Introduction
- Introducing Encrypting File System
- EFS Features
- Encryption and Decryption
- Recovering EFS Files
- Demo: EFS
- Demo: Encrypting Folders
- Summary

BitLocker

- Introduction
- Overview of BitLocker
- BitLocker and TPMs
- BitLocker Requirements
- Tools for Configuring and Managing BitLocker
- Deploying BitLocker
- Demo: Deploying BitLocker
- Demo: Enable BitLocker on Client
- BitLocker on Hyper-V VMs
- BitLocker and CSVs
- Enabling BitLocker for CSV
- Network Unlock
- Network Unlock Process
- BitLocker Recovery
- Microsoft BitLocker Administration and Monitoring
- Summary

File Server Resource Manager

- Introduction

- Capacity Management
- Storage Management
- Introduction to FSRM
- Overview of FSRM
- Installing and Configuring FSRM
- Demo: FSRM
- Quota Management
- Demo: Create Quotas
- Demo: Using Quotas
- Summary

File Screens and Reports

- Introduction
- File Screening
- Using File Groups
- Exceptions and Templates
- Demo: File Screens
- Demo: File Screen Properties
- Storage Reports
- Report Tasks
- Demo: Storage Reports
- Demo: Generate Reports
- Automatic File Management
- Summary

Classification and File Management

- Introduction
- File Classification
- Classification Rules
- Demo: Classify Confidential Documents

- File Management Tasks
- Summary

Dynamic Access Control

- Introduction
- Overview of Dynamic Access Control
- Dynamic Access Control Scenarios
- DAC Technologies
- Understanding Identity
- Understanding Claims
- Types of Claims
- Central Access Policies
- Policy Components
- DAC Prerequisites
- Demo: Prepare for DAC
- Demo: Create Claim Type
- Demo: DAC
- Summary
